

*The International Centre for Climate Change & Development (ICCCAD) is a research and training centre based at the Independent University, Bangladesh (IUB) in Dhaka.*

*ICCCAD's mission is to gain and distribute knowledge on climate change, especially in a South Asian context, in order to help people adapt to the adverse effects of a changing climate.*

## Agenda for COP22

ICCCAD is particularly interested in exploring how universities can be used to build capacity and support the next generation face the future impacts of climate change.

ICCCAD aims to be recognised globally as a centre of excellence on Loss and Damage related scientific and action research.

The goal at this COP is to enable Bangladesh and LDCs to share their knowledge and utilise the understanding gained to strengthen the negotiation process.

## Side Events not to miss

### Capacity Development in the Long Term

Organisers: UNDP and ICCCAD  
November 11, 2016 (9.00am to 10.30am)  
at UNDP Pavilion, Blue Zone, Marrakesh, Morocco

### Loss and Damage

Organisers: ICCCAD and University of Cadi Ayyad  
November 11, 2016 (3.00pm to 6.00pm)  
at University of Cadi Ayyad

### ICCCAD's Event on Capacity Building: Role of Universities in Implementing the Paris Agreement

Organisers: ICCCAD and University of Cadi Ayyad  
November 15, 2016 (3.00pm to 6.00pm)  
at University of Cadi Ayyad

### Mini Side Event with RINGO on Engaging Researchers on Capacity Building

Organisers: RINGO and ICCCAD  
November 17, 2016  
at Climate Studio at COP22

## Loss and Damage Workshop at COP22

Date: Friday, November 11, 2016 (3:00 PM - 6:00 PM)

Venue: University Cadi Ayyad of Marrakech, Boulevard Abdelkrim Al Khattabi  
Marrakech 40000, Morocco

### Objective:

- Enhanced understanding of the current status of the negotiations on loss and damage, including progress on the nine work areas of the loss and damage mechanism.
- Improved knowledge of methodologies, mechanisms, tools, best practices of future work on loss and damage.
- Developing a consensus among key players in loss and damage on the best way forward, including ideas on how best to execute the five year rolling work plan.

### Key Feature:

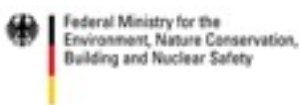

*Presentation on Scoping Paper of National Mechanism of  
Loss and Damage in Bangladesh*

## Initiative for Climate Action Transparency (ICAT) M&E Framework for Adaptation

ICAT founded in 2015 provides policymakers around the world with tools and support to measure and assess the impacts of their efforts to climate action primarily to curb GHG emission. ICAT has initiated to broaden its scope to encompass adaptation and provide countries with an M&E framework, and associated capacity building support.

At COP22, ICCCAD with other ICAT partners will engage with experts and negotiators from selected countries to assess national-level demands for an M&E framework on adaptation and to identify means to mainstream such a framework.

### Donors:

### Grants Management:

### Implementing Partners:

## Workshop on Role of Universities in Implementing the Paris Agreement

Date: Friday, November 15, 2016 (3:00 PM - 6:00 PM)

Venue: University Cadi Ayyad of Marrakech, Boulevard Abdelkrim Al Khattabi  
Marrakech 40000, Morocco

### Objective:

- To bring together researchers, academics, policymakers, negotiators, UN and multilateral agencies to exchange their knowledge and skills.
- To improve the current capacity building initiatives beyond the current practice of consultation.

### Key Feature:

**Talk on Possible Role of Universities in Building Capacity by Dr. Saleemul Huq.**

### Capacity Development in the Long Term

Date: November 11, 2016

Venue: UNDP Pavilion, Blue Z

How to use NAPs for comprehensive risk management and building resilience against losses and disaster?

Please come and join us to know the country perspective of linking adaptation planning to risk management related to climate induced loss and damage.

#### Panelists:

- **Dr. Saleemul Huq**, ICCCAD, Bangladesh
- **Pepetua Latasi**, Tuvalu
- **Professor Buddhi Marambe**, University of Peradeniya, Sri Lanka
- **Professor Sidat Yaffa**, University of Gambia, Gambia

**Co-Organised by:**  
UNDP and ICCCAD

### Engaging Researchers in Capacity Building

Date: November 17, 2016

Venue: Climate Studio at COP22

Interested in the roles of researchers and universities in building climate-related capacities? Please come join the discussion on capacity building at a mini-side event during the second week of COP 22. We will discuss the roles of researchers, educators, and practitioners in building capacities needed to deal with the challenges of climate change.

#### Speakers:

- **Saleemul Huq**  
Director, ICCCAD, IUB
- **Marilyn Averill**  
Senior Fellow, Getches-Wilkinson Center for Natural Resources, Energy and the Environment,  
University of Colorado, School of Law, USA

#### Co-Organised by:

ICCCAD and Research and Independent Non-Governmental Organisations (RINGOs)

## ICCCAD Team at Marrakech

**Dr. Saleemul Huq** is the Director of ICCCAD and a Senior Fellow at the International Institute for Environment & Development (IIED). He has supported the Least Developed Countries (LDCs) in the UNFCCC for over 10 years and published numerous articles in scientific and popular journals with a particular focus on adaptation and loss and damage.

**Ina. F. Islam** is the deputy director and administration manager of ICCCAD. She focusses on building the capacity of institutions in the Global South working on climate change and development. She has a special interest in gender issues related to climate change.

**Dr. Mohammed Feisal Rahman** is the of research coordinator at ICCCAD and faculty of the Department of Environmental Science at the Independent University, Bangladesh based in Dhaka. His focus is on tracking adaptation finance.

**Naznin Nasir** is the communicators coordinator and research officer at ICCCAD. Since joining the centre in June 2016, she has worked in supporting the private sector of Bangladesh access the Green Climate Fund and coordinates ICCCAD's Loss and Damage and Migration program.

**Saqib Huq** is a research officer at ICCCAD focussing on climate finance, change change and energy, and the centre's youth program.

**Meraz Mostafa** is a research officer at ICCCAD. He supports the communications team and manages a weekly climate change page at the Dhaka Tribune.

**Dr. Muzna Rahman** is a lecturer in English Literature at Manchester Metropolitan University in the United Kingdom. She is currently a visiting researcher at ICCCAD.

**Masroora Haque** is a Junior Research Fellow at the Centre International Governance Innovation (CIGI) and studies Global Governance at the Balsillie School of International affairs at the University of Waterloo, Canada. She is currently a visiting researcher at ICCCAD.
